18. Early Returns

You can return a book early to remove it from your account. You return a borrowed item early from your computer using Adobe Digital Editions. It is NOT done from your Nook.

Open up Adobe Digital Editions on your computer. Make sure you are in Library View. In Library View you will see small thumbnails of each book you have checked out.

Click on the small arrow in the upper left hand corner on the thumbnail of the book you would like to return. A drop down menu will appear. Choose Return Borrowed Item. This will remove the book from Adobe Digital Editions and will also update your Account automatically.

Although you will still see the book on your Nook, you will not be able to use it unless you check it out again. It remains on the Nook so that you can keep a list of what you have read. Also, if you had highlighted anything in the book or made comments, it will save them. The next time you check out the book, they will be restored.

You can choose to delete the book off your Nook if you no longer want to see it.
